Back in 2008, I discovered HAMLET IN ROCK - a rock opera version of Hamlet set in outer space - and quickly became pen pals with its creator, Rudolf Volz. Later that year, Rudolf and his pal Andreas came to visit myself and other fans in Evanston, IL. It was a great time for all of us. Even with HiR fans all over the country now, the singularity and wonderful weirdness of his creation is still underappreciated. Please check it out, headbang to its ballads, and share it with your best buds. There is nothing else like it - anywhere.
